

Passage of bill on iodine deficiency control urged

Our correspondent

ISLAMABAD: The National Alliance on Protection and Promotion of Breastfeeding and Iodine Deficiency Disorders (IDDs) Control has urged the government to initiate the legislative process on passage of the Iodine Deficiency Control Bill in the Parliament and to institute necessary actions for enforcement of the Protection of Breastfeeding Law in its true spirit. In a meeting held here on Thursday, the alliance strategised a campaign for enforcement of the Protection of Breastfeeding Law 2009 and urged the government to table the IDD Control Bill before the Parliament without further loss of time.
